

Laszlo Magyar - Moulding Director

After Laszlo completed his apprenticeship in 1984 with a New Zealand Certificate in Mechanical Engineering he advanced to technical processing before accepting a position in Australia as a process engineer.

Laszlo joined Roblan Pty Ltd in November 1984 as the Plastic Moulding Production Manager.

Upon the retirement of Ken Toulmin in July 1986 Laszlo was promoted to the Moulding Division Manager.

He was elected Chairman of the Marketing Committee in June 1996 and became a member of the TQM Steering Committee.

In November 1999 Laszlo was appointed a Director of Roblan Pty Ltd.

Laszlo began his career in New Zealand in 1980 as an Apprentice Plastic Mould designer. During his apprenticeship he also received training in product design, toolmaking and plastic processing in injection moulding, blow-moulding and vacuum forming.
